

NSC 556
TOPICS IN ALGEBRA, TRIGONOMETRY, AND PRE-CALCULUS
FALL 2017

Credits: ?

Level: Introductory

Class time and room: MWF 11:30 – 12:20 Sci 217

Instructor: Kaethe Minden, kminden@marlboro.edu

Course webpage: <http://cs.marlboro.edu/courses/fall2017/topics/home>

Blurb: This course covers a wide range of math topics prerequisite for further study in mathematics and science and of interest in their own right. The course is divided into 10 units, listed on the course webpage. One credit will be earned for each unit completed. Students select units to improve their weak areas.

Grading: Your grade for this course will be based on the homework assignments at the end of each section.

What now: For Friday, look at the website with the list of units and let me know which topics you wish to cover.
